REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Independent Claims 1 and 15 teach the limitations "wherein said server is further configured to create a directory for a user, wherein said server is configured to populate said first directory with a first plurality of files according to said first user, wherein said first plurality of files includes said first file, wherein server is configured to create a second directory for said second user, wherein said server is configured to populate said second directory with a plurality of files according to said second type, and wherein said second plurality of files includes said second file." in combination with the other limitations of the claim and dependent claims 2-3, 6-17, 20-24.

The prior art does not teach the cited limitation.

The Kenner reference teaches the system testing latency and storing access times. The Eckes reference teaches users accessing files through transfers and downloads with multiple users and user types. The Midgley reference teaches a system of backing up and restoring files associated with specific users. No prior art reference of record implements or suggests all the limitations of the claimed limitation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
